*I'd pay to see this on Broadway or in a Las Vegas show in a heartbeat! Loved it so much I went back for a second showing! AWESOME SHOW! So entertaining! Not a dull moment. - Deborah Schull*

*I liked the concept of the show, the uniqueness of the rhythmic choices for instruments, the engaging energy of the performers. Super precise rhythm, a polished show, but also incredibly charming and vulnerable. - Spence Frankenberge*

*The musical and dancing creativity was exceptional! Astounding performances by the cast of 6 who each dance and drum up a storm of excitement while using ordinary items to great effect. Ever danced on bubble wrap? Drummed on a Home Depot bucket? Be prepared to be surprised at what gets pulled out of boxes and then becomes part of the show. I especially enjoyed the electronic creation of music made up of noises from the cast and words from the audience, then choreographed into a great tap number! Great fun for audiences of all ages! - Shari Barrett*

*I adored the high-octane moments of pure pounding fury!!! Add in some wicked lighting, some sweet tapping, and a few mischievous grins, and the results were undeniably crowd-pleasing! There were a couple of moments that each of the dancers got to shine and I love moments like that in a show! Kudos must go to the amount of humor that is sprinkled all throughout the piece (whether the performers are interacting with each other, their objects, or the audience). My absolute favorite part was them using the multi-colored tubes to make familiar songs – MORE PLEASE!! Cleaning supplies, buckets, boxes, and bubble wrap never looked (or SOUNDED) so badass! My favorite kind of dancing – TAP coupled with a whole lotta drumming?? Yes, please!! This family-friendly, wham-bam rhythm explosion was a lot of fun! And the fact that the audience was at many times, an active participant made this 60-minute show a frolic for the eyes and ears! What a high-energy, strong, and cohesive ensemble of performers!! - Carol Becker*

*The acting and dancing was flawless, the incredibly creative use of the set and props for the percussion, the way that the show kept you engaged by raising the absurdity and encouraging you to participate; there's so much to like and it's the kind of show that anyone can enjoy. The audience I watched with was very diverse, and we all had a wonderful time! The electrifying energy and talent from every performer in this show kept me excited and tapping my feet the entire way through. I loved everything about it! - Eden Chyun*
